## Overview

---

Apple iPhone 7 (4.7 inch Multi-Touch) 256GB WLAN WWAN Bluetooth Camera Fingerprint-Sensor iOS10 (Gold) APP07074

iPhone 7 dramatically improves the most important aspects of the iPhone experience.

It introduces advanced new camera systems.

The best performance and battery life ever in an iPhone.

Immersive stereo speakers.

The brightest, most colourful iPhone display.

Splash and water resistance.

And it looks every bit as powerful as it is.

iPhone 7 reaches a new level of innovation and precision.

The enclosure is splash and water resistant.

The Home button on iPhone 7 is an advanced solid-state button designed to be durable, responsive, and pressure sensitive.

Working in tandem with the new Taptic Engine, it gives you precise tactile feedback as you press.

And it's even customizable.

And with a new unibody design that's seamless to the touch, iPhone 7 feels as amazing as it looks.

Using a highly advanced fingerprint sensor that's as fast as ever, Touch ID makes unlocking your iPhone easy and secure.

iPhone is the most popular camera in the world.

Now we've re-engineered that beloved camera, adding optical image stabilization, an  $f/1.8$  aperture, and a six-element lens to make it even better for shooting photos and videos in low light.

And with advanced new features like wide colour capture, your photos and Live Photos will look even more vibrant.

Videos shot in darker settings with iPhone 7 will look remarkably better, enhanced by optical image stabilization and the all-new  $f/1.8$  aperture.

And the 12MP camera captures high-resolution video up to 4K.

So you can shoot epic movies of epic moments, even if they're happening in low light.

The FaceTime HD camera is not only higher resolution, but it also uses wide colour capture.

So now you can take sharper and more vibrant selfies.

Worried about lighting? The Retina Flash matches the ambient light for a shot with natural-looking skin tones.

- 256GB Storage
- 12 Megapixel  $f/1.8$  aperture camera and 7 Megapixel FaceTime HD Camera
- 4.7 inch (Multi-touch) LED-backlit widescreen Retina HD Display with IPS technology
