Overview

Avery L6043-100 Transparent Classic Size CD Labels [Pack 200]

Technical problems can cause us all a headache at times.

It's awful when you've spent time creating documents only to lose the data further down the line.

Make sure important information isn't lost by backing up your work.

You can save documents on CDs, but how do you know what's on each CD? Simply add a CD Label.

It takes no time to create printed labels that are clear and easy to read.

This is better than trying to read handwriting and looks really professional.

These Classic Size CD Labels cover the surface of the CD but not the transparent centre.

- Cover the surface of the CD and exclude the transparent part of the CD
- Ideal if you want the classic look of a CD
- Opaque material blocks out any text on the disc
- Compatible with the Avery CD/DVD COMBI labelling kit
- Dia.117mm Classic Size Black and White Ref L6043-100 [200 Labels]
