Overview

Avery Laser Full Face 117m Labels (White)

Got a data CD to send to clients? Impress them from the minute they open the envelope by creating your own CD Labels.

Handwriting the contents with a CD pen just won't do all your hard work justice.

But a printed CD label will.

The opaque labels completely cover the text underneath the label so all clients see are the actual contents.

You can add text, your company logo and other graphics if you use Avery DesignPro.

It has over 800 templates for CD Labels so you can create some great designs in no time.

- Laser CD labels, with a larger 117mm full face design, giving more space to add a personal touch
- Opaque material blocks out any print on the disc
- Pre-designs available to ensure a professional finish
- Compatible with the Avery CD/DVD COMBI labelling kit
- Dia.117mm Black and
- White Ref L7676-25 [50 Labels]
