### Overview

---

Avery L7656-25 Mini Organising Labels (White) 46 x 11.1mm (Pack of 2100 Labels)

Ever host slide shows? Perhaps you're showing images from a travelling experience or a historical destination.

Those tiny 35mm slides can be very fiddly to hold and slot into the trays.

What happens if they get put in the wrong order? It's easy to solve if you create labels for slides as you can read exactly what each one is and where it belongs.

Slides may be handled regularly so you need to be sure the text won't rub off.

Don't have a need for slide labels? These little white labels are also great for using in the office to mark in-trays and shelves.

- These small labels are specially designed to fit 35mm slides
- Clearly identify office and home media products quickly and easily
- Eco-friendly labels can be fully recycled as part of paper waste and are FSC® certified made with paper from well-managed forests
- Save time with FREE Avery templates and software for Microsoft Office. Easy to download, easy to use
