The price is right but how do you let customers know what that is? Adding price tags to all your products is a quick and easy way to show how much something costs.

So simply print your own price labels and put them on your products.

Price labelling does not need to be done by an external supplier.

It can all be done in-house.

This is ideal for when you only need a small batch of price labels printing.

You can choose these mini labels with 270 per sheet or go larger with 189 per sheet and they are both available as Removable Labels.

It's up to you.
