Overview

Avery Laser and Inkjet Filing Labels for 60mm Box Files 12 per Sheet 41x100mm Pack of 300 Labels

Imagine this situation.

Your boss has just asked you for a financial document from over five years ago.

You know it's in the archives somewhere but exactly where is it? Maybe it's been right in front of you but just wasn't legible because it was a colleagues handwriting.

This could be a reality in the future if you don't sort out your archiving today.

Placing old items in box files and clearly marking the contents is the best filing solution.

Printed labels will save you time trying to guess what handwritten files say so use the free software from Avery to create your labels.

And with Avery Block Out Labels extend the life of your files.

Stick them over another label and nothing will show through.

- Find items faster with clearly and professionally labelled files
- Ideal for organising all your filing and archiving
- Extend the life of your files with Avery BlockOut Laser Labels. Use files time and again as the labels are opaque and block out the detail underneath

- Stick reliably to the spine of box files
- Save time with FREE Avery templates and software for Microsoft Office. Easy to download, easy to use
