Overview

Plastiplay Modelling Clay Assorted

PlastiPlay is a coloured modelling material that never hardens.

It is ready to use, soft, smooth and pliable.

As it does not dry out it can be reused time and time again.

PlastiPlay has been specifically formulated to be softer and cleaner than other coloured modelling material.

- · Ideal for artists, hobbyists, at home or in school
- Perfect for teaching the principles of working in 3D; modelling and sculptures
- Non-fibrous
- · Wheat and gluten free
