Overview

Pentel S570 Plastic Ultrafine Pen (Red) Pack of 12

From our offices just outside Swindon, Wiltshire, we distribute a wide range of pens, pencils, correction products, markers and art materials to customers throughout the United Kingdom and Ireland.

Our mission is to develop pens that offer you a more satisfying writing experience, correction products that give you better value for money and art materials that allow you to release your true creative side.

We're proud that Pentel has been responsible for the development of ideas behind two-thirds of the writing instruments in use around the world today.

From the first acrylic fibre tipped pen, to no fewer than 25 shades of pigment gel ink, our goal is to create products that make all forms of written and artistic communication not only effective, but inspiring.

- Plastic tip is reinforced with a protective metal collar to ensure a more precise line
- Perfect for stencilling as well as figure work
- Line width: 0.3mm
