Overview

Bic briteliner (1.6 to 3.4 mm) Chisel Tip Highlighter Pen (Assorted) Blister Pack of 5

BIC Highlighter is a slim and reliable pocket size highlighter that lets you keep your notes colour-coded and easy to understand.

The water-based ink is fluorescent, making it easy to colour-code notes and highlight key passages in your work.

The chisel tip is specially designed so that the ink will not dry out if the cap is left off for up to 8 hours.

It is suitable for faxes and photocopies as well as standard paper, making it great for your home, school or office stationery.

- Ink will not bleed through paper
- Transparent cap so nib can be seen
- Bright colours
