### Overview

---

Edding 751 Paint Marker Xylene and Toluene-free Bullet 1-2mm Line White Ref [Pack 10]

Drawing and decorating on smooth surfaces has never been easier when using edding paint markers.

This gloss paint marker is the fine-nibbed counterpart to the edding 750, which is the ideal tool for larger areas.

With the marker's soft nib you can create detailed inscriptions and decorations on glass surfaces, Christmas tree baubles, biscuit tins or storage boxes.

Its opaque ink provides good coverage and is perfectly durable.

The edding 751 gloss paint marker is available in a range of vibrant colours.

This edding gloss paint marker has a 1 - 2 mm bullet nib and is incredibly simple to use.

Simply shake the pen firmly, remove the cap, place the nib on a piece of scrap paper and pump it up and down until the tip fills with ink, then off you go! Working with this pen is a pleasant experience thanks to its low odour ink.

Furthermore it is water, abrasion, light and heat resistant.

The nib of this gloss paint marker is replaceable.

- Gloss paint marker for highly opaque, permanent and smudge-proof writing and decorating on smooth and even dark and transparent materials, e.g. glass, metal, plastic and coated paper
- The round nib has a stroke width of 1 to 2mm
- The paint-like pigment ink is quick-drying, weatherproof, extremely lightfast and wear-resistant
- Available in 18 different colours
- Spare nibs are available

- Low-odour ink with no added toluene/xylene
- High-quality aluminium barrel
