Overview

Dymo LabelManager 420P Compact Label Maker 4-Line Display

Powered by a lithium-ion battery - the same technology used to power cell phones and laptop computers - the DYMO LabelManager 420P label maker eliminates the inconvenience of AA batteries.

Charge and use, unlike an AC adapter, labelling power whenever you need it.

The label maker's new design is perfect for any office or workspace.

Plus it's packed with new features - inspired by our consumers- that help you get the results you want with more ease and convenience.

The new, large backlit screen displays four lines of text.

Work faster with an improved user interface that displays all menu commands without scrolling, and includes easy-to-read icons for formatting options.

Choose from 8 fonts and 10 text styles; highlight your text with 8 box styles or underlining.

Prevent repeated work with a 10-label memory feature.

LabelManager 420P uses DYMO D1 labels in 6, 9,12 and 19 widths.

Enter text quickly and naturally with the familiar ABC keyboard layout, and use special function keys for fast access to punctuation marks, currency and other special symbols.

- Plug and play software allows you to plug in, type and print labels immediately
- Re-chargeable lithium-ion batteries (included)
- Large four line graphical display shows how printed label will look
- Prints labels on 6, 9, 12 and 19mm labels
- ABC keyboard
- Prints up to four lines of text

- WxDxH: 104x215x57mm
- Weight: 0.4kg
