Overview

Avery (99.1 x 38.1mm) Inkjet Addressing Labels (Clear) Pack of 350 Labels

Brown, cream, silver, red, whatever colour the envelope is you want to make sure your addressing looks neat and professional.

You can let your mail show its true colours by using clear labels for an inkjet printer to print the recipients address.

It's a great way to get a professional finish as it looks as if the text has been printed directly onto the envelope.

In fact, the transparent labels virtually disappear.

You can peel and apply the inkjet labels with ease using the unique QuickPEEL feature from Avery.

- Transparent labels which virtually disappear when applied to white, coloured or textured backgrounds
- Colour of envelope shows through for a typed effect
